

DRIVE-THRU COVID-19 TESTING

The Reyes Family of Businesses is now offering an additional method of COVID-19 testing for all employees via CVS drive-thru

TO SCHEDULE YOUR APPOINTMENT: visit cvs.com/employertesting

Drive-thru testing is available by appointment only in select locations. Appointments can be made up to 72 hours in advance and refresh each morning at 6am EST.

YOU WILL NEED TO HAVE THE FOLLOWING TO SCHEDULE:

Home
Zip Code

VIC Employee
ID Number

Date
of Birth

CVS is constantly working to add more locations & increase testing abilities. Continue to check back if you are having issues finding an appointment.

what to expect... Taking the Test

- Stay in your car and follow posted instructions at the site.
- You'll be greeted by a trained CVS colleague who will confirm your employee ID and other basic information.
- For the COVID-19 test, you'll remain in your car and perform the swab test under supervision.

what to expect... Receiving the Results

- Once you complete your test, your results will be available online through MyChart. You'll learn about MyChart during testing.
- Turnaround times are currently 6-10 days on average, but they are working to shorten this in the near future.
- Your results will be shared with your state's department of Health.
- Speak to your local HR representative for appropriate next steps following testing.

Note: this program is a safety precaution and not offered as part of our benefits program. Therefore all employees are able to participate regardless of benefits enrollment. Family members/dependents are not covered at this time.
Testing is not currently available in all areas of the U.S. - but CVS is adding locations frequently in order to assist all of our employees.
